

Project Lazarus Emergency Session

AD-HOC CRISIS COMMITTEE · SCIMUN 2026

AGENDA

"Does the truth come out — or does it get buried, permanently?"

Geneva, 2026. Ninety-six hours after the Lazarus Coalition releases a 47,000-document archive to fourteen news organisations, delegates convene in a classified off-record summit. The documents reveal that the network survived its gatekeeper's death — intact, expanded, and represented in this very room. Every delegation has something to protect. Every alliance is temporary. One delegate is an informant. No one knows who.
